

Vertex-CFD

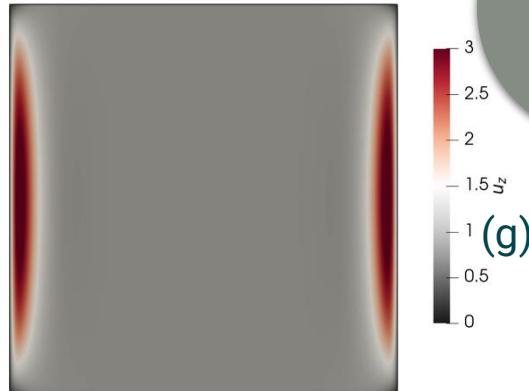

(a)

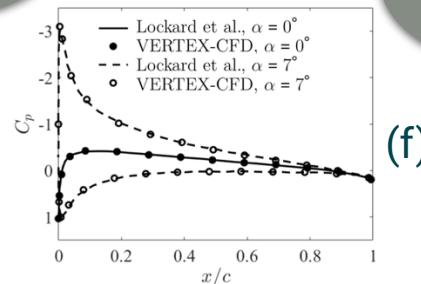

(b)

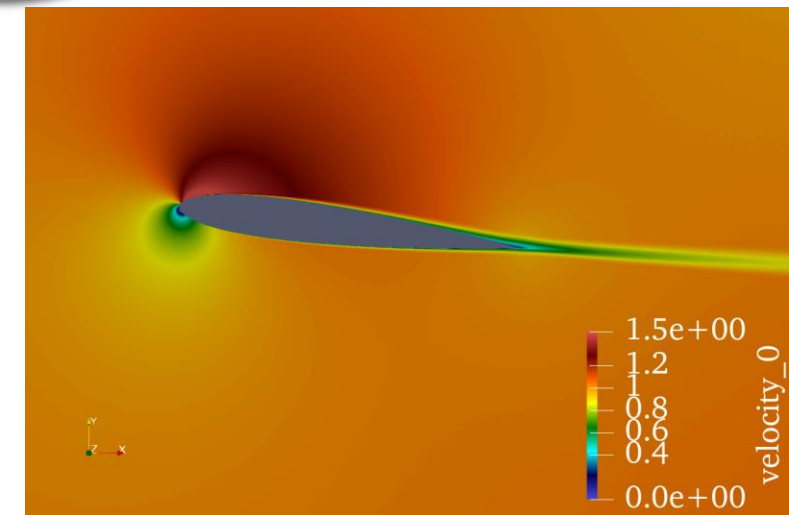

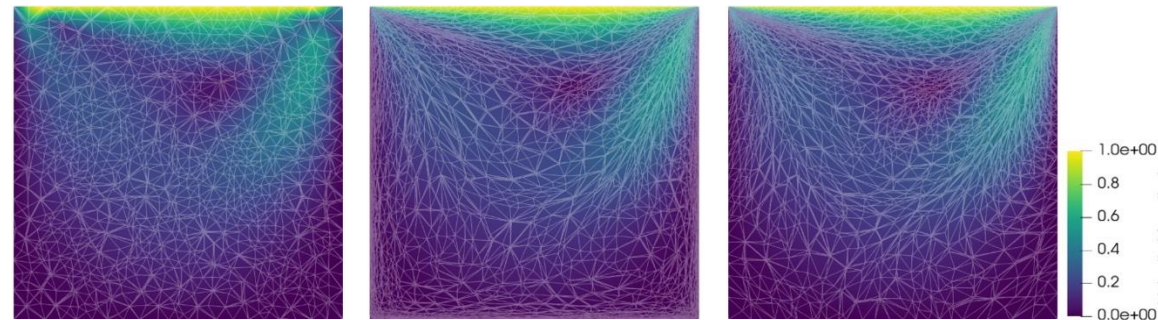

(c)

(e)

(f)

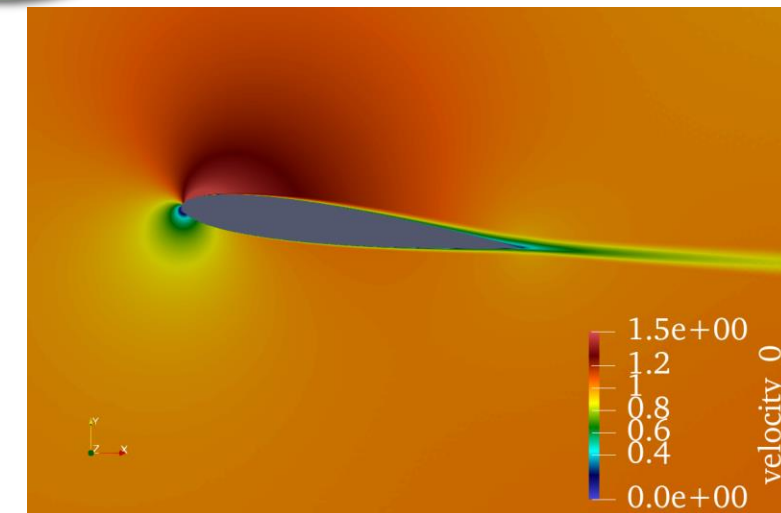

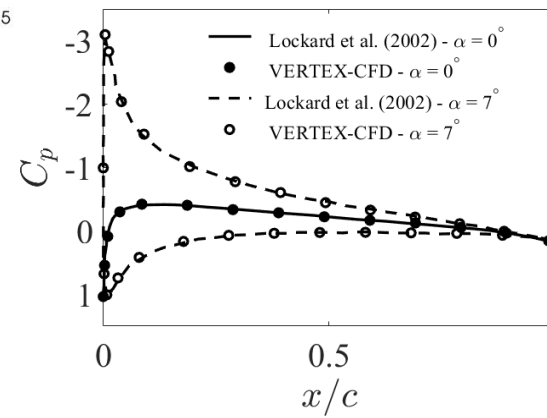

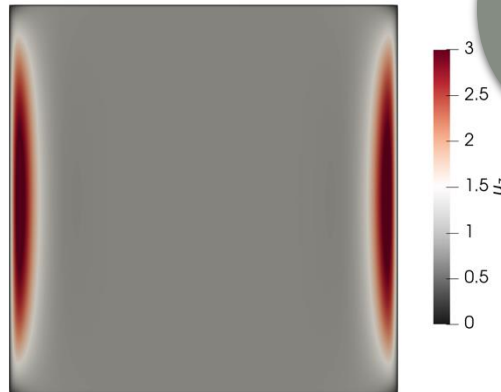

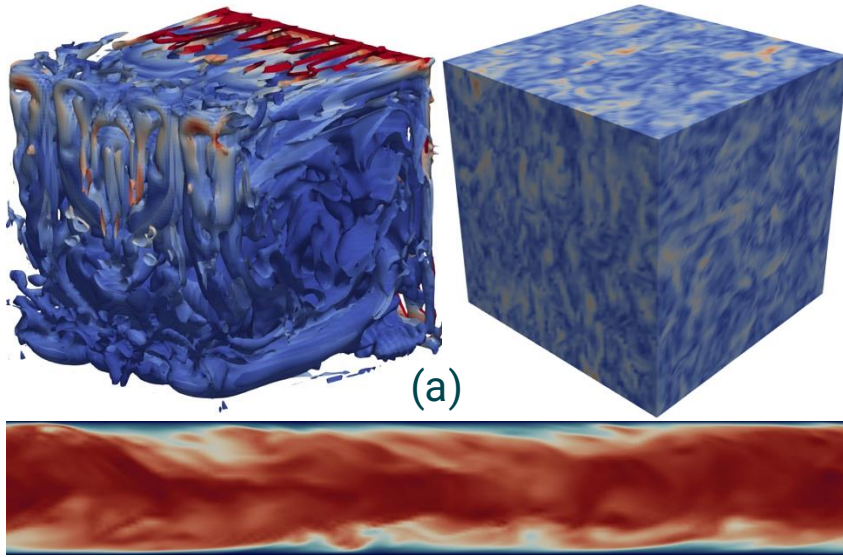

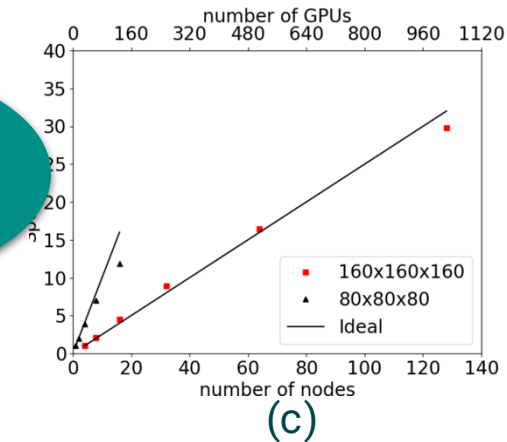

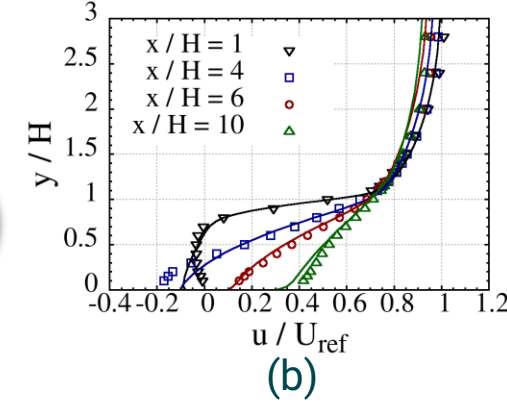

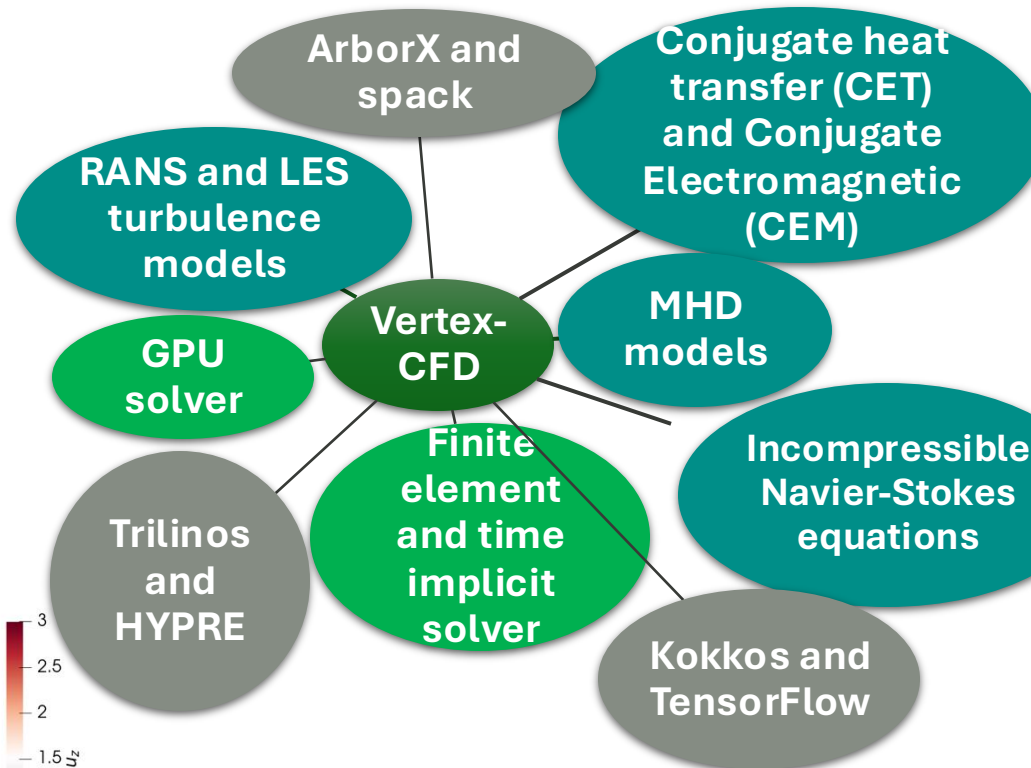

(d)

Legend (clockwise):

- Modeling turbulent flow of lid-driven cavity and turbulent channel with LES.
- RANS solution of flow over a backward step.
- Strong scaling on Frontier.
- Flow over a NACA0012 airfoil ($Re = 500,000$).
- AMR of lid-driven cavity.
- Pressure coefficient for different angle of attacks.
- Hunt problem ($Ha = 300$, $Re = 10$ and $c = 0.05$)
